Membership July/August 2023

Well, a new year of membership has now started. We can make our goals if we all work together. Before I forget, there has been a small change in the title of one of our managers. Jackie Davis is the scorekeeper for the team. Each district president is a coach for their particular district. I would like for each manager to contact their coaches once a month and let them know what they are doing. They might want to start to do this once a month and then more often as the year goes by.

Reminders

Please remember that we are going to be looking at the “paid totals” in MALTA for membership. At the beginning of the year, take a look at your auxiliary rosters. If any of your members have passed away, please report those deaths now. Do not hold those deaths until the end of the year.

Another reminder is about the membership applications. Please use the newest versions of the applications. If you have any of the older applications, please get rid of those. Do not use them. One person sent an older application for a new member. Our Department Secretary had to return the application because there was some information that was missing. The person paid for a life membership. The money was returned because the amount paid was the incorrect amount. So please go through the blank membership applications and make sure you are using the newest one.

Goals

Our goals are important to meet for the department. When our department meets different goals on membership, our department will earn some money.

1st Goal – Reach 95% Plus in membership by November 30, 2024.

2nd Goal – Reach 98% Plus in membership by March 31, 2024.

3rd Goal – Reach 100% Plus in membership by June 30, 2024.

4th Goal – Reach 101% Plus in membership by June 30, 2024.

Remember there is no crying in membership. No crying in membership. We can meet these goals if we all work together as a team. There is no I in team.
